TIERED PROPOSALS

SEE IT IN ACTION

From building photo to branded proposal — in minutes

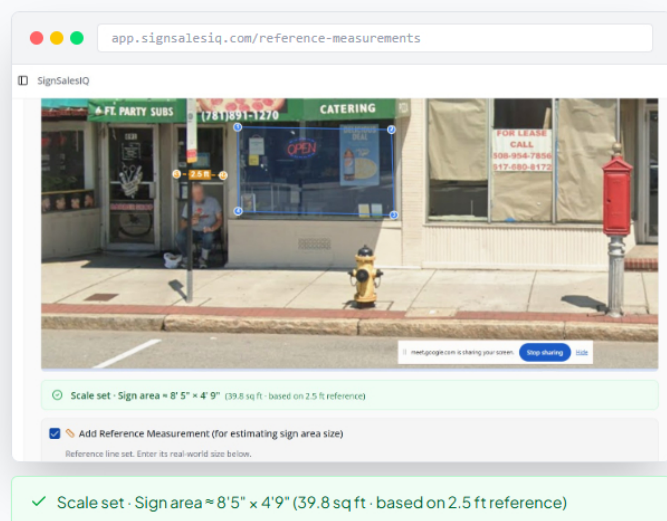

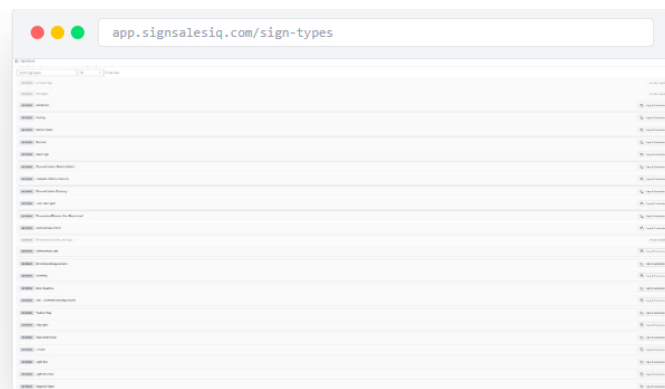

Watch how SignSalesIQ turns a cold lead into a polished proposal before you
leave the meeting.

49+ sign types, interior & exterior, already trained

Every major sign type your team sells is already in the system — channel letters, awnings, monument signs, ADA, vehicle wraps, dimensional letters, EMC boards and dozens more.

- ✓ A-Frame, ADA, Awnings, Banners, Blade Signs
- ✓ Channel Letters (Front-Lit, Back-Lit, Raceway)
- ✓ Dimensional Letters, Door Graphics, EMC boards
- ✓ Feather Flags, Light Box, Monument, Pylon, Vehicle Wraps
- ✓ Interior & exterior — both fully supported

02 — REFERENCE MEASUREMENTS

Measure the sign area without a site visit

Use Google Street View or any head-on building photo. Draw a reference line on a known object — a door, a brick, a window — enter its real-world size, and SignSalesIQ calculates the exact sign area instantly.

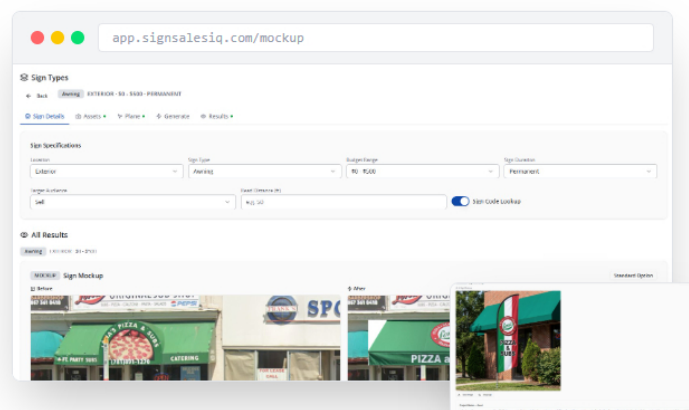

- ✓ Works with Google Street View or uploaded photos
- ✓ Draw reference on any known object
- ✓ AI calculates sign area — "8'5" x 4'9" (39.8 sq ft)"
- ✓ Saves hours of site visit time per opportunity

03 — AI MOCKUP GENERATION

From street view to polished mockup in minutes

Upload a building photo or pull from Google Street View. Add logo assets, pick your sign type, set your specs — and let AI generate a realistic mockup placed directly on the real building.

- ✓ Upload building photo or use Google Street View
- ✓ Add logo assets from web or high-res file
- ✓ Pick sign type, location, budget range & duration
- ✓ Optional AI prompt for custom styling
- ✓ Before/after mockup generated in minutes
- ✓ Save Image or Crop Sign for delivery

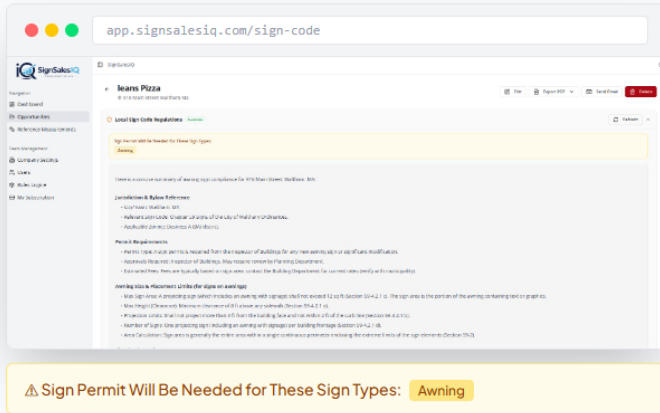

04 — LOCAL SIGN CODE

Local sign code rules built into every opportunity

Enter the client's address and SignSalesIQ automatically pulls the local jurisdiction's sign code — permit requirements, size limits, placement rules, and zoning restrictions. Know before you propose.

- ✓ Auto-pulls local sign code by client address
- ✓ Permit requirements flagged automatically
- ✓ Size, placement & zoning rules included
- ✓ Sign permit warnings appear on proposal output
- ✓ Currently available for major US jurisdictions

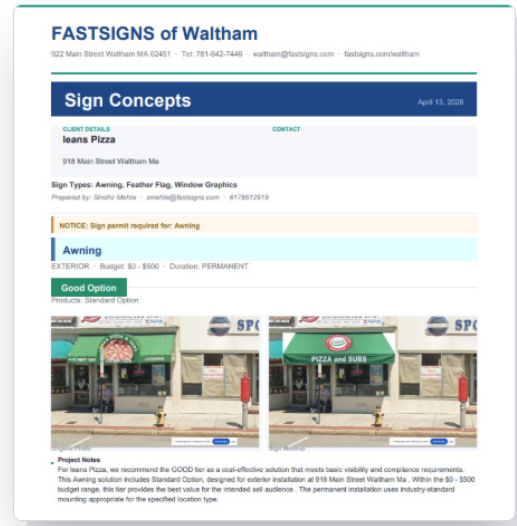

05 — BRANDED PROPOSALS

Send a branded proposal before you leave the meeting

Every opportunity generates a professional PDF — complete with your company branding, before/after mockups, sign specs, permit notices, and Good/Better/Best tier recommendations.

- ✓ Branded with company name, address & contact
- ✓ Before/after mockup images side by side
- ✓ Good / Better / Best pricing tiers
- ✓ Permit notices from local sign code
- ✓ Export PDF or email directly to client
- ✓ Send while still in the sales meeting

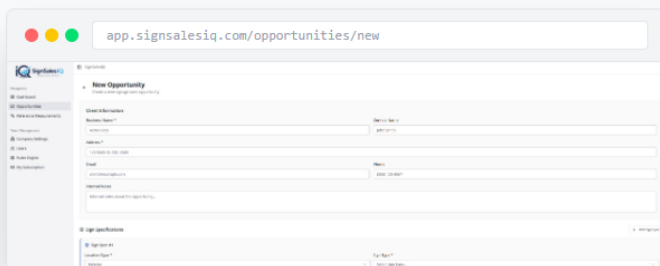

06 — OPPORTUNITY MANAGEMENT

Every sale starts with a new opportunity

Create a new opportunity in seconds — client info, sign specs, budget, target audience, and read distance. Everything in one clean form that feeds the entire workflow.

- ✓ Client information: business name, address, contact, email, phone
- ✓ Sign specifications: location type, sign type, budget range, duration
- ✓ Target audience and read distance inputs
- ✓ Sign Code Lookup toggle — auto-pulls local rules
- ✓ Add multiple sign specs to a single opportunity

Close deals before your competition even sends a quote
