✓ 256-bit SSL

✓ SOC 2 Ready

✓ 99.9% Uptime

✓ AI-Powered Scheduling

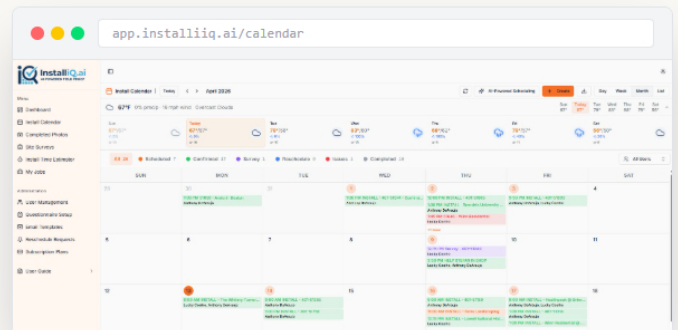

✓ Role-based access control

01 — CALENDAR

Smart install calendar with 7-day weather view

Schedule with confidence. Know before you go. Live 7-day forecast embedded in every job — color-coded by status so your whole team stays aligned.

- ✓ 7-day forecast in every job view
- ✓ Color-coded status: Scheduled, Confirmed, Survey, Issues, Completed
- ✓ Automatic weather alerts on high-risk install days
- ✓ Full team visibility — all users, all jobs

PARSED WORK ORDER

Project **Anduril Boston — 401-51893**
 Sign Types **Channel Letters, Cabinet Signs**
 Quantity **3 units**
 Address **200 Runar Road, Waltham MA 02451**

✓ Calendar event created — Thu Apr 17, assigned to Crew A

02 — AI WORK ORDERS

AI work order recognition & calendar auto-fill

Drop in a work order — PDF, image, or forwarded email — and InstallIQ parses every detail and creates a calendar event automatically. No re-keying. No missed details.

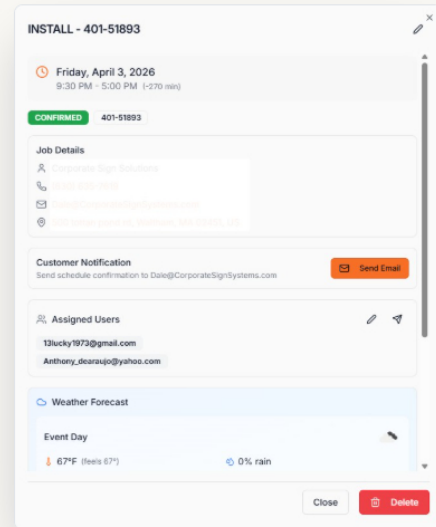

- ✓ Reads PDF, image, and email work order formats
- ✓ Auto-fills sign types, quantities, location & notes
- ✓ Calendar event ready in seconds, assign to any crew

03 — CUSTOMER NOTIFICATIONS

Automatic schedule & reschedule emails — always branded

Every job entry includes a one-click customer notification. Send confirmation, reschedule, or "On My Way" alerts — all branded with your company details.

- ✓ Auto confirmation on job creation
- ✓ Instant reschedule notifications
- ✓ Weather forecast embedded per job
- ✓ Assigned crew visible to dispatcher

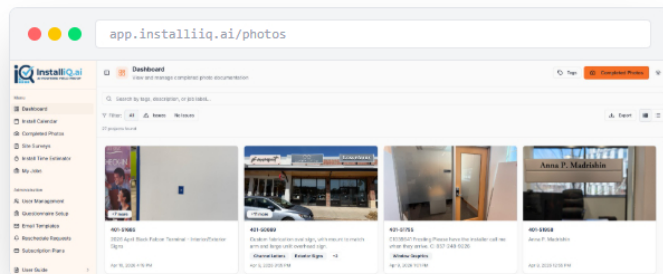

04 — PHOTOS & TAGGING

50 photos per project, AI-tagged at the job site

Structured before/during/after capture with all job info pre-filled. AI reads and tags every photo by sign type, location, and phase — before you leave the site.

- ✓ Up to 50 photos with pre-filled job information
- ✓ AI tags by sign type, location & install phase
- ✓ Channel Letters, Exterior Signs, Window Graphics auto-detected
- ✓ Zero manual labeling
- ✓ Search by tags, description, or job label
- ✓ Export for warranty claims or QC reviews

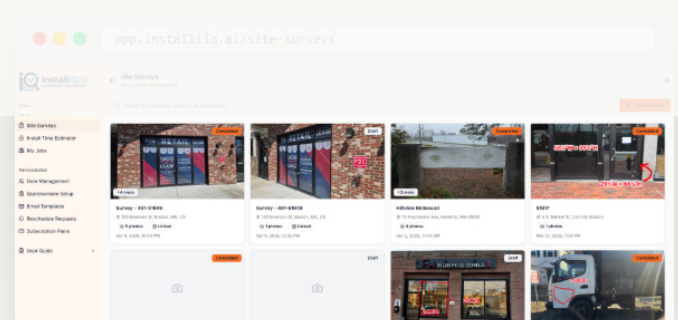

06 — SITE SURVEY PORTAL

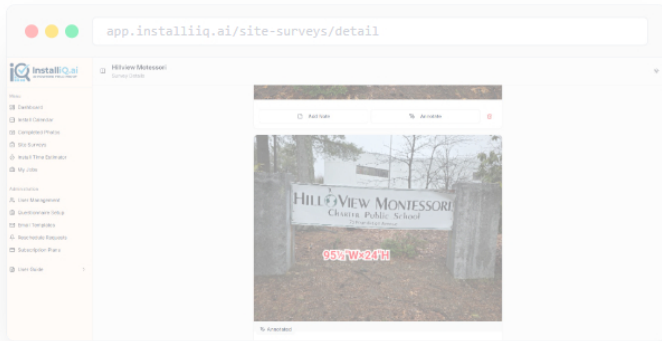

Survey, annotate exact dimensions, deliver from the portal

Capture site dimensions and conditions before installation. Annotate photos with measurements, then email directly to the client or install manager without leaving the app.

- ✓ Dedicated pre-install site survey workflow
- ✓ Annotate photos with exact dimensions & markups
- ✓ Completed and draft survey management

- ✓ Email survey directly to client from the portal

07 — DIMENSION ANNOTATION

Annotate photos with real-world measurements on site

Mark exact dimensions directly on survey photos in the field. Red annotations are saved with the photo, attached to the job, and ready to share — no extra steps.

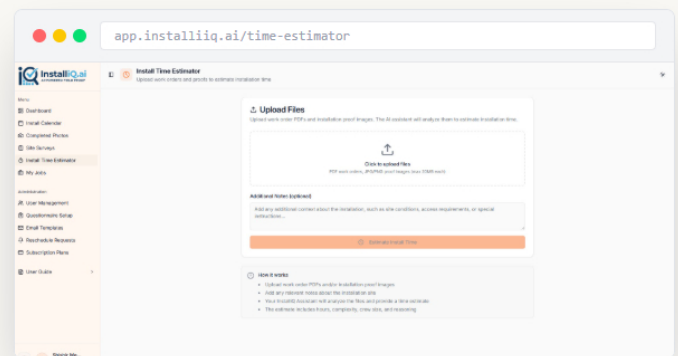

- ✓ Draw dimension callouts directly on photos
- ✓ Measurements saved with every survey image
- ✓ Annotate work order photos for instant analysis
- ✓ Share annotated images via email from the portal

08 — INSTALL TIME ESTIMATOR

Estimate install time based on your actual team

Tell InstalliQ your crew's skill set and it calculates realistic installation time by sign type and complexity. Better estimates mean tighter schedules and more accurate quotes.

- ✓ Calibrated to your team's skill set
- ✓ Estimates by sign type, quantity & complexity
- ✓ Helps build accurate quotes and daily schedules
- ✓ Upload work order PDFs or proof images for instant analysis

From work order to field proof in one platform

Every step of your install workflow — connected, automated, and documented.

01

Upload Work Order

AI parses & auto-fills the calendar event

02

Schedule Crew

Weather-aware calendar, customer notified automatically

03

Crew On Site

On My Way tap, site survey, 50+ photo capture

04

AI Tags & Organizes

Photos sorted, tagged, searchable instantly

05

Send Field Proof

Branded report emailed to client from the portal

Ready to run tighter installs?

See how sign shops are cutting admin time and impressing customers on every job.
